Projects

AI Caller CRM Voice Assistant | *Node.js, Express.js, MongoDB, Twilio, Vapi AI*

2025

- Engineered an AI-powered CRM system with automated voice assistant capabilities using Vapi AI and Twilio
- Designed and integrated REST APIs for intelligent voice interactions, automated call workflows, and lead management
- Built a centralized real-time dashboard for call monitoring, lead tracking, and performance analytics using MongoDB

GuideGo – Smart Tourism Platform | *React.js, Node.js, Express.js, MongoDB, Socket.io, Leaflet*

2026

- Developed a full-stack tourism platform enabling users to explore destinations and book verified local guides
- Implemented interactive map-based discovery using Leaflet, audio guide feature, and real-time chat via Socket.io
- Integrated multi-service modules for hotels and restaurants with role-based authentication using JWT

GRAMZO – Local Marketplace & Service Platform | *React.js, Node.js, Express.js, MongoDB, JWT*

2026

- Built a mobile-first full-stack marketplace supporting service bookings and local product purchases
- Implemented role-based dashboards for Admin, Agent, and User roles with secure JWT authentication
- Developed real-time features including a booking system, live price updates, and push notification system
- Designed responsive UI/UX using Tailwind CSS for service categories: repairs, beauty, grocery, and real estate

OSP Digital Services Platform | *HTML, CSS, JavaScript, Node.js*

2025

- Designed a digital services platform enabling non-technical users to access government services online
- Implemented secure form handling, input validation, and WhatsApp-based workflow automation

Experience

Software Development Intern

Jan 2026 (15 Days)

SEOCZAR IT Services Pvt. Ltd.

On-site

- Applied Off-Page SEO techniques including backlink building, directory submissions, and social bookmarking to improve website search engine rankings
- Analyzed website SEO performance metrics and collaborated with the development team to optimize digital marketing strategies
- Gained practical exposure to digital marketing workflows, content strategy, and Google Search Engine ranking factors

Achievements

- **1st Prize Winner** – National-Level Hackathon, NIT Bhubaneswar (2026)
- **Winner (1st Place)** – Technical Innovation Competition, Govt. College of Engineering, Keonjhar (2026)
- **First Prize** – Project Exhibition, Bhubaneswar Engineering College (2025)
- **Third Prize** – App Development Competition, Bhubaneswar Engineering College (2024)
- **3× National-Level Hackathon Winner** (1st Place) – Participated in 20+ hackathons & technical competitions, demonstrating strong problem-solving, rapid prototyping, and teamwork skills (2024–2026)
- **Event Coordinator** – Organized and coordinated multiple college-level technical events, ensuring smooth execution and team collaboration
- **Coordinator** – Smart India Hackathon; led team coordination and supported event management activities
